

THE OMINECA HERALD

VOL. 5. No. 37.

NEW HAZELTON, B. C., MARCH 14, 1913

EIGHT PAGES

**ELECTRIC LIGHT
TO BE INSTALLED****Cheap Light Can Be Secured for New
Hazelton—Plant to be Installed
This Summer**

The New Hazelton Citizens' Association have before them a proposition for the installation of an electric light plant for both street and house lighting, as well as for stores and offices. It is a steam plant that is proposed, and wood would be used as fuel until such time as coal can be secured from some of the nearby coalfields, or until such time as the market is sufficiently large to warrant the development of the immense water power at Haguelgate canyon. This matter will be taken up by the Citizens' Association very thoroughly.

**BANDSMEN WANT
WORK UP HERE****A Dozen Miners Looking for Work—
Will Bring Band Instruments
With Them**

The Herald received a letter on Saturday from Alberta stating that the writer and a dozen other miners, who were also accomplished musicians, were desirous of securing employment in or around New Hazelton. They would bring their band instruments with them and join any musical organization started for the benefit of the town.

It is to be hoped that these men may secure employment, as a band in New Hazelton would add much to the pleasure of the citizens.

John P. Stewart, Butte, Mont., was in the district several days the past week getting in touch with the mineral resources. He will return in about six weeks, when it will be easier to get to some of the properties.

**MODERN TELEPHONE SYSTEM
IN NEW HAZELTON DISTRICT****Local and Long Distance Connections--Citizens' Association Behind
the Movement--An Up-to-Date Plant--Great Thing
For the New Town and District**

Prospects are very bright for a telephone system in New Hazelton, with long distance connection with old Hazelton, all the Mines, Morricetown, Glentanna, Chicken Lake, Aldermere and Telkwa.

W. R. Love, Prince Rupert, was in town several days last week and interested a number of local people in the move. A canvass of the two towns was made, and practically every business house, several residences, and half a dozen of the mines expressed a keen desire to put in one or more telephones. To begin with there will be at least seventy-five phones in the new town and old town, a very encouraging list, and one which will easily pay its own way.

Last Friday night Mr. Love met the executive of the New

**WANT NINE MILE
ROAD COMPLETED****Silver Cup Co. Held Annual Meeting---
Will Operate if Government
Builds the Road**

The annual meeting of Silver Cup Mining Co. was held last week in Prince Rupert, when the reports were presented and the directors elected. The directors are the same as last year, with the exception of V. W. Smith, who retired to make room for Frank Stephens, who was also appointed secretary. The directors will meet in a short time to elect their officers and to decide upon a campaign for the summer.

Until the government completes the wagon road from the Harris Mines to Silver Cup, none of those mines on Nine Mile mountain will be able to operate. As soon as William Manson returns to Prince Rupert, it will be learned what provision the government has made. If the road is to be completed it is more than probable the Silver Cup, Sunrise, Lead King and other very promising properties will resume operations.

Looking For Ore and Coal

Secretary-Treasurer Campbell, of the Granby Co., made a hurried trip to this district last week in the interests of his company. He first visited the Silver Standard mine to look at the ore that company is now working in and ready to ship. While here he was making enquiries about the Copper River Coalfields, and it is understood his company would like to secure that coal for coking purposes.

Mrs. R. O. Miller left on the Monday morning stage for Telkwa, where she will join her husband, who has been conducting the Telkwa Tribune since the first of the year.

Editorial Corrected

On the editorial page of this issue referring to the registration of voters it is stated: "particularly that the blank space in the form for the date is not filled in with the date the form is made out."

The act distinctly says the date of the application must be inserted. The act also states that no applications will be received which are not dated subsequent to 3rd March.

The above mistake was only discovered after page two had been printed.

M. Sheedy Entertained

One of the big social events of the season in Prince Rupert was the bridge party given by M. Sheedy at the G. T. P. Inn, in honor of his many friends in the city and from the interior who were visiting there. A large number of guests were present, and the evening was a thoroughly enjoyable one in every respect. Bridge tables were placed in the parlors on the second floor, and at mid-night an excellent repast was served in the big dining room on the main floor. The Ladies' first prize was won by Mrs. Durant, and Miss Milligan took the second. The gentlemen winners were also awarded first and second prizes.

Will Work Their Claims

Geo. McBean will return to the district about the first of May, and he and Jas. Latham will devote their time this season to their group of claims on Nine Mile mountain. Mr. Latham got back last Saturday. They are interested in five claims which they staked about four years ago when the first staking was done on the hill.

Birth

Kerr -- In New Hazelton, on Sunday, March 9, 1913, to Mr. and Mrs. Jas. Kerr, a daughter.

Returning to Hazelton

Jas. Riley, Frank Brown, Chas. O'Neil and Wm. Sargent are on their way to Hazelton, after having spent the winter on the outside.

Ball Grounds Secured

While in town on Monday last, Wm. Allison, accompanied by V. W. Smith, went over the ground asked for by the Citizens' Association for an athletic park and as a site for municipal buildings. These two blocks are centrally located, and are about the only ones serviceable for ball grounds. Mr. Allison recognized the justice of the request and he will recommend to the government that the land be turned over to the town.

**STARTED FOR
GROUND HOG****Amos Godfrey will Have Charge of
B. C. Anthracite Coalfields This
Season--Work Twelve Men**

Amos Godfrey arrived in the district last Saturday night, and on Tuesday, about noon, left with four men and a couple of toboggan loads of supplies for the Ground Hog country. Mr. Godfrey is representing the B. C. Anthracite people, and he will have charge of the work which was recommended by G. W. Evans, M. E., who examined the property last summer. The company this season will have about a dozen men working, principally drifting on the outcrops to prove the continuity of the veins. F. B. Chettleburg has charge of sending in the supplies, and he will see that between four and five tons will be landed there this season.

M. Sheedy returned to town on Saturday night, after spending the past two or three months holidaying in the south. He will be busy this spring and summer on his contract beyond Burns Lake.

On Government Land

Wm. Allison, Government agent for this district, was in town on Monday on his way to the old town after a trip to Telkwa. His mission to the valley town was in connection with the occupation of government land in the town. It appears that the one side of the main street is occupied for business and residences. The road runs along the river front. In time the people will have to move off, but it is not likely that they will be troubled for the present.

Back to the Wagons

The snow has gone and the roads are breaking up. Last Saturday the stage from Telkwa was a full day late getting in--the first time since the bad roads last fall. Unless there is a great deal of rain, the roads should soon be in good shape for wheels as the snow fall was very light and the frost was not deep in the ground.

Out of Business

C. G. Harvey has given up the hotel business in old Hazelton. His lease expired Monday night and that night he moved out and is now getting ready to start his new building in New Hazelton. The Hazelton Hotel is now controlled by E. C. Stephenson, who will continue the business for the present.

Three Hundred Foot Tunnel

Duke Harris has taken the contract to drive a three hundred foot tunnel on the Erie property on Four Mile mountain, and he has begun work. The first thing he will do will be to sack up the hundred tons of ore which are now on the dump, and get it ready to ship as soon as the roads are in any kind of shape. In a few days more he will get the tunnel under way.

**WORK TO RESUME
ON NEW BRIDGE****Engineer Spencer Returned Wednes-
day--Has Machinery and Tools
to Work With**

Engineer Spencer, representing Geo. Cradock and Co., contractors for the high level bridge across the Bulkley, returned to town on Wednesday night, and he will resume work immediately and it is not expected that there will be any further delay.

While in the south Mr. Spencer purchased the necessary machinery and tools which will enable him to rush the work. The steel from the old country, will also be here by the time the timber is ready, so that it should not be many weeks before the bridge will be ready for traffic.

**DRAMATIC CLUB
WAS ORGANIZED****Young People Decide to Provide En-
tertainment for Benefit of
Baseball Club**

At a meeting of the young people held one night last week, a dramatic club was organized, for the purpose of providing a series of entertainments. The first one will be for the benefit of the baseball club, and will be put on as soon as the parts are learned and perfected.

Lots of Money for Skeena

According to the estimates for this year a vote of \$403,000 has been provided for the Skeena District for roads, bridges, streets, etc. This is the largest sum ever voted for this district and there should be a great deal of excellent work accomplished during the coming season. The estimates also provide for grants for ferries across the Skeena river at various points between Kitwanger and Prince Rupert.

Will Build Hotel

The Herald has been informed that within the next two weeks a hotel building will be started in New Hazelton and that it will be rushed to completion in order to relieve the accommodation situation in town. If possible a liquor license will be procured, but the hotel will be built and opened anyway.

No Accommodation

Every train for the past two weeks is bringing to New Hazelton more people than there is accommodation for. The spring business is starting early, and the need for a first-class hotel, licensed or unlicensed, is increasing. An unlicensed house would be a big paying proposition.

Moved Out the Line

H. W. Kraus, who has been running the road house at 18 mile for the past year, has moved to 89 mile--the old McInnes stand. He desires to thank the public for their liberal patronage in the past, and invites everyone to stop at his new place. Good, clean beds and the best of meals.

FRIDAY, MARCH 14, 1913

Attention is drawn to the fact that everyone within the province who is qualified to vote must make application to have their names placed upon the voters' list whether they have been on before or not. All lists have been cancelled and new ones are now in the making. Those entitled to vote may secure application forms from the various government agents or from the numerous special commissioners appointed in every locality. Providing all other qualifications are correct, any white male who has resided in the province for six months prior to March 3rd, 1913, is entitled to be on the list. The commissioners for the two political parties must get busy. There is no time to lose. Care should also be taken to see that the forms are properly made out, and particularly that the blank space in the application form for the date is not filled in with the date the form is made out. Any application not properly made out in that particular will not be accepted by the registrar.

Get On the Voters' List

There is nothing which is of greater pleasure to the citizens, the rural residents, or the visitor to the town than to see good roads and nice clean streets. New Hazelton is a new town, and anything in the way of roads could not be expected up to the present. This spring there will be considerable work done by the owners of the townsite. This will be practically the first, and it is very largely up to the people of the town to frame the policy that will be pursued. Therefore let us have one road, if need be, but let that road be a good one, to which all can point with pride and travel with pleasure. Concentrate the business and residential portions in as compact a space as possible and thus have good roads and sidewalks on all the streets occupied. A first-class road from the high level bridge and one to the station will make a wonderful difference in the town and in the cost of doing business. To grade streets in all directions is a false policy. A large amount of ground may be covered

ed, but it is like opening a sink hole for the people's money for a generation. Build roads that are roads, and roads which will not eat up the entire tax revenue for repairs. Do as much as possible, but do it well. New Hazelton has the makings of a modern town. Begin right; then, as population increases, extend the good roads and sidewalks, and every visitor in town will become a booster. There is everything to gain by good roads, and the material is here and can be put on the streets at a minimum cost.

New Hazelton's baseball boys are now making an effort to raise sufficient money to clear the athletic grounds on Tenth Avenue, which will be granted by the provincial government. These grounds will be vested in the municipality and will be used for all athletic purposes and for all time. That athletics are necessary to the life of a town is acknowledged by even the most pessimistic grouch, and it behooves everyone who has any interest in the community to support the boys most liberally. Everything done for the baseball boys in the way of assisting to clear and improve the ball grounds is a boost for the town and an increase in the price of real estate. It is to be hoped that no one will refuse to contribute, and especially those who are chiefly concerned with the ownership of the townsite and in the sale of lots. Requests will shortly be sent to all parties concerned.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

ROYAL STANDARD WORK BIG FORCE

Manager Fraser Now Getting Ready to Start For Omineca Placers in a Few Days

Manager Fraser, of the Royal Standard Investments Co., Vancouver, arrived on Wednesday night's train with a number of men, and they will leave at once for the Omineca country, where the company holds extensive placer grounds which will be worked this season. Last year Mr. Fraser took in the hydraulic machinery and got it installed and ready to operate, so that it will be only a very short job to get the machinery in operation. They expect to have a very busy and profitable season. The prospecting done last year was very satisfactory, and Mr. Fraser took back some samples of both fine and coarse gold. They are sending in fourteen men and a large quantity of supplies which will last until the pack trains can get in this summer. Mr. Fraser predicts that this will be the biggest season the Omineca has had since the big rush some forty years ago. Practically every company and syndicate holding ground will operate this year, and a big bunch of the precious yellow metal should be brought out this fall.

Announcement Next Week

The Natural Resources Security Co., who now have the selling rights in section one, have completed the plans for their advertising and boosting campaign. Announcement will be made next week, and from then on for the next few months New Hazelton will be a live issue. Every effort will be put forth to not only sell town lots, but to bring people in to settle and to do business. Reports from Vancouver are to the effect that the outlook for New Hazelton are exceedingly bright and encouraging and it is predicted that this will be a bumper season.

The Herald Job Department makes a specialty of fine business stationery of all kinds.

Tenders for Freightage Supplies for the Yukon Telegraph Line

EXTENSION OF TIME

THE time for receiving tenders for the freightage of supplies for the Yukon Telegraph line in the course of the seasons of 1913, 1914 and 1915, is hereby extended to Friday, April 4, 1913. Tenders are to be sealed, endorsed "Tender for Freightage Supplies" and addressed to the undersigned. Forms of tender and specification may be obtained and form of contract seen on application to Mr. J. E. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C.; Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnelle, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender for one year's packing, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for, if the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, February 15, 1913.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—56236.

PLANS ARE READY FOR IMPROVEMENT

Street Grading, Sidewalks, and Diversion of Five Mile Creek are Included In Program

Word has been received that the owners of New Hazelton townsite are nearly ready to begin a big program of improvements, at a very early date. Several streets will be graded and sidewalks built and a great deal done to encourage business men to come in and erect buildings. Besides a road to the de-

pot, Five Mile Creek will be diverted by a deep ditch down Laurier street. This will carry all the water in one stream and leave a most valuable part of the townsite perfectly dry and ready for building purposes.

The plans as prepared have been sent to New Hazelton, and prices for the work are now being secured, so that in a very short time actual work will be underway.

Geo. Wall has taken over the blacksmith shop on Pugsley St. He has a competent mechanic in charge of his shop.

Provincial Elections Act

NOTICE is hereby given that the List of Voters for the Skeena Electoral District has been cancelled, and that applications to be placed on the Voters' List will be received at my office at the Government Buildings, Prince Rupert, B. C., where printed forms of affidavit to be used in support of an application to vote will be supplied.

The list of persons claiming to vote will be suspended from and after the 7th day of April, 1913, and a court of Revision will be held on the 19th day of May, 1913, and notice of objections to the insertion of any name on the Register of Voters must be given to me thirty clear days before the holding of the Court of Revision.

Dated this 3rd day of March, 1913 J. H. McMULLIN
87-3 Registrar of Voters for the Skeena Electoral District

FROM THE TOWN PUMP

A week from today is Good Friday and a bank holiday.

Some people believe everything they hear. At least they repeat all they hear and add some to it. Funny those who have the most at stake are often the ones who believe the most.

On March 26 the bachelors of the old town will give a dance, which is expected to rank among the big social events of the old burg. A number of New Hazelton people will attend.

The blacksmiths who have been running the shop here have made so much money that they have lit out. Some people cannot stand prosperity. It is a great inconvenience to the local horse owners.

The town pump is now in charge of Mr. Zackon, who will keep it in repair at the expense of the citizens. Anyone found abusing the pump will be prosecuted. Those with uncontrollable tempers will please take notice.

The Porphyry creek bridge was crossed last Friday, and now the rails are laid to Boulder creek, where another big bridge is being erected. This is the last of the big bridges. It will take from two to three months to complete.

A week from Sunday is Easter Sunday. Watch the local windows for the millinery displays. According to the latest fashion plates the hats this year will be larger, smaller and more hideous than ever, while the price will keep pace with the increased cost of living.

The Liberal-Conservative Association held a meeting last night and are getting in shape for any emergency call. The straight Liberals are talking of having a meeting in the very near future for the same purpose. "To be always ready for battle is the surest sign of peace."

The pessimists in rival towns, and the soreheads howling for other townsites, are now extending sympathy to New Hazelton owing to the report that the F. W. & S. pay offices were soon to move out the line. When the pay office and head offices are moved from New Hazelton, the main line of the G.T.P. will be completed.

Send to Merryfield & Co., Prince Rupert, for wholesale grocery price list. It means big money to you.

POULTRY DEPARTMENT

The farmer of to-day is no longer the man to whom to sell the gold brick. He is awake to everything that is going on. The Telephone, rural mail delivery, and the automobile have placed him in a position to keep posted about everything. He has come to the conclusion that it pays to keep the best of everything. Thoroughbred cattle find a place on almost every farm. The same may be said of sheep and swine. Poultry was late in being accorded such a place on the farm, but it has come at last. Go where you will and you will find well-bred birds. Ask the farmer if it pays, and he will tell you that it pays better, in proportion, to keep well-birds than to keep well-bred cattle or other stock. The mongrel flock of the past received but very little attention from the farmer himself, but the finely bred birds of to-day demand his attention as well as the sheep and cattle. He knows that they are paying him a good profit, and hence he is giving his best attention to them that they may continue to do this.

The farmer who has not yet come to his own will do well to investigate this matter and place himself in a position to get larger profits by keeping well-bred poultry. The initial cost will be a little more, but after this the cost from year to year is no greater. A well-bred bird will eat no more than a mongrel. The keeper will give a little more care and attention to the former because they are valuable. Better houses will be provided, and regular meals will be given. The

old haphazard methods will be abandoned and up-to-date methods employed.

The result of all this is that the eggs will bring more in the open market. This may seem to be a pretty strong statement, but do you know that eggs of one color and size will bring a better price at the dealers' than a mixed lot? Now and then study the quotations on eggs and you will note such a price for whites, and such a price for browns, and a still lower price for mixed. With some one breed, the farmer will get eggs nearly of a color and the market price will be advanced on his goods because of this.

The same thing holds true of the dressed poultry. A market-man likes to get hold of a shipment of well dressed birds all of the same size and color of skin. He is willing to give more for them. If you make one consignment, you will find that you have an open market for your goods.

Then there are the hatching eggs in the spring. Any farmer who has thoroughbred poultry can sell to his neighbors and townspeople a lot of eggs during the hatching season at a good advance from regular prices. If you doubt this, Mr. Farmer, try to buy some hatching eggs from some neighbor who has well bred stock, and see what he expects to get for them. This will convince you that there is money to be made from well-bred birds. The profits will more than offset any extra cost in securing them or in caring for them. If you will get them and have them on the place once, you will never be contented to go back to the old mongrel flock again. The writer has never yet heard of a farmer who let his mongrels go and bought pure-breds, that was willing to take them back in a few years. Try this out, Mr. Farmer,

FOR SALE

Thoroughbred White Orpington Cockerels; also eggs for hatching, \$3.00 per 15. S. C. White Leghorn Cockerels, eggs \$2.00 per 15.

er, and see if you cannot make more money from pure-bred birds than you now do from your mongrel stock.

Rape for Green Food

The value of rape as a green food for poultry is but little known, and it is hardly ever raised except in large fields in the country. But there are a few facts about it that ought to be better known.

In the first place it is good for fowls of all ages, and they are very fond of it.

It can be used from the first of

June until frost comes.

It is easily sown, and requires but little attention after it is well started.

It can be grown successfully in a small garden in town or city.

It yields an abundant crop, which can be used for five or six months continuously.

The ground does not need deep plowing; if the soil is fairly mellow a small hand wheel plow will put the ground in good condition. A good time for sowing is about the first of April. Sow rape seed and clover seed together; if you are likely to have rain soon after sowing, no harrowing or raking need be done, as the rain will settle the seed into the ground sufficiently for germination.

It is well to sow in sections, leaving open spaces a foot or two wide, so that the chicks will not get lost under the foliage and lose their bearings.

The rape is likely to come up very thick, and when it is six inches high, it should be thinned, as much better results can thus be obtained. It grows to a height of two feet; but when half grown, a limited number of young fowls can be turned into the inclosure an hour before roosting time. They will pick the edges of the leaves, but do no damage, as the leaves will continue to grow. In fact the larger top leaves can be picked and fed to the laying hens in the coops. These leaves can be cut at least twice during the season without interfering at all with the growth of the plants, and what is left will furnish good foraging until winter.

The clover sown with the rape will yield a good crop the next season, a new section of ground being used for rape. If you have never raised a crop of rape, try it out on a small scale this

A good quiet place for a night's REST

Jimmie's Lodging House

Thirteenth and Pugsley Street
Rates Fifty Cents a Night
Beds are clean and comfortable

Kept by the oldest timer in the country

spring.

Perhaps one word of caution should be given, and that is not to sow rape in an orchard, or in a garden where there are small fruit trees, as such trees seem to be injured by close contact with a crop of rape.

Indigestion Among Fowls

Chickens are subject to indigestion as well as human beings. It is possible that they do not suffer as we do from it, but the effects are very pronounced. Loss of appetite, sluggishness, and a generally debilitated condition, give undisputed proof of the trouble. The thing to do is to look carefully after the feeding, endeavoring to make it as light as possible for a time. If a balanced ration is used, much of such trouble will be averted. Prevention is better than cure.

Use Care in Mating

The poultryman who is careful in his mating will find that the offspring will be exceptionally good. When the females have been selected for uniformity of size, shape and color, and the male to offset any marked defect, the young chicks will develop into good specimens of marked uniformity. Try this out another year, and see if you do not get a better lot of birds than by haphazard mating.

OVERHEARD AROUND NEW HAZELTON

Miss Jean Grant, Hazelton is a guest of Mrs. Geo. Wall.

Government Engineer Lamont has returned from a trip to Prince Rupert.

J. D. McColl, Montreal, was in town this week calling on the merchants.

V. W. Smith and Mrs. Smith returned from Prince Rupert on Saturday night.

Jack Williams returned Wednesday night from a business trip to Prince Rupert.

Constable Munro, of the provincial force, left on Monday morning for Decker lake, where he will be stationed.

J. C. Sheppard, John Albi, M. Sheedy and D. A. Rankin left on Sunday morning for their various camps along the line.

Another big crowd of passengers came in on Wednesday night's train and the town has since been very lively.

A couple of prospectors left on Tuesday morning for the Omineca country where they intend to spend the next few months.

L. J. Conkey left on Sunday morning on a trip over the grade as far as Decker Lake. He will be back the latter part of next week.

F. G. Dawson, Prince Rupert, was a business visitor in town this week. He arrived on Saturday night and expects to go to the valley before returning south.

Jas. Kerr has been receiving hearty congratulations from far and near upon the arrival of his infant daughter. Little Miss Kerr is the first daughter of New Hazelton.

Wm. Lynch left Sunday morning for Prince Rupert. Before he returns he will have several more carloads of groceries and feed on the way. In spite of the reports from rival sources, the business of New Hazelton is increasing every day.

E. L. Kinman, Vancouver, arrived here on Wednesday night to look after his interests on Four Mile mountain. Work has been started on the Erie property and when the big tunnel is completed it is expected that the Erie will be on the list of regular shipping mines.

It was reported to the Herald on Monday that the robins had made their first appearance in New Hazelton that morning. The man has a reputation of being always sober and truthful and his statement could hardly be contradicted. 'Twill be an early spring surely.

C.P.R. steamer Princess Beatrice sails from Prince Rupert for Vancouver at 8 p.m., on the following dates:— January 19th, February 2nd and 16th, March 2nd, 16th and 30th, or every alternate Sunday. Through connection made on these days with train from Hazelton. tf

A meeting of the New Hazelton Liberal Association will be held on Saturday evening at 8 o'clock in the Presbyterian hall. The cancellation of the voters' list makes this meeting an urgent and important one. All liberals are requested to make every effort to attend and lend assistance to the business that will come before the meeting.

Recent reports from Prince Rupert are to the effect that Crippen's Boneless Herring Co. is now on a fair road to prosperity. The new plant is working exceptionally well and the full force is packing as hard as they can work. The demand for this appetizing fish is increasing, and there are bright prospects for a dividend this year.

An Interesting Issue

The March "Rod and Gun" is out and contains a varied and entertaining list of contents, which include the following:—"After Caribou with the Utcchekats," by R. J. Fraser; "Old Canada—A Visit to the Gaspe Peninsula," by Madge Macbeth; "Up the Waverley Road," by Paul A. W. Wallace; "A Piscatorial Pilgrimage of Port Arthur Sportsmen," by L. W. Bingay; "An Eastern Black Fox Ranch," another of the series "Small Fur Bearers and How to Take Them," by G. J. Thiessen; an installment of "A Canoe Trip in 1854," and other articles of outdoor life both east and west. The issue is attractively illustrated and should be read by all sportsmen and lovers of outdoor life. W. J. Taylor, Limited, of Woodstock, Ont., publish the magazine.
